ClustePoliSEE

Developing Smart Specialization Strategies for Cluster Improvement

Elisabetta Maini
Regione Emilia-Romagna
23/04/2013

MAIN OBJECTIVE:

"defining, developing and implementing regional cluster policies as a corollary of the pooling of resources and integration of activities along the global value chain, matching regional competitive advantages with international synergies."

Specific Objectives:

1. set up a collaborative ICT platform as a learning mechanism system for partnership and relevant stakeholders aiming at improving SEE cluster policies

2. provide an in-depth assessment of the regional cluster policies in the participant countries, based on consideration of past actions, visions of the future, analysis of current contexts

Specific Objectives:

3. identify factors, tools, experiences, best practises to work on developing new policy learning mechanisms that will be tested through pilot initiative

4. strengthen support to result-oriented transnational cooperation for the design of new strategies (Joint strategic Plan, sustainability plan and SEE level Initiative) for project results sustainability and as contribution to support South East Europe area as the place of innovation.

WORKING GROUP THEMES:

WG 1 - Innovation, R&D driven Cluster Development

WG 2 - Sustainability through Cluster Development

WG 3 - International Cluster Cooperation and networking

WG 4 - Financial Framework Improvement (Cluster Financing)

WG 5 - Clusters and Regional Specialization

WG 6 - New skills and Jobs creation
